

Monthly Newsletter of the St. Albert Photo Club

Pre-Season Update - August 2010

Welcome to another year of the St. Albert Photo Club (a.k.a. SAPC). Summer is over (booo!), but the start of another photo season can only mean more chances to show off your photos (yaaaah!)...so go ahead, be a “show-off”.

Check out our updated “Members’ Guide” brochure, which you can download as a PDF from the club’s web site. By the way, our web site has also been updated to reflect the look and information contained

within the brochure.

For the club’s new season, along with the refined competition rules, there is a small form (for your convenience) to fill out for each photo submitted to the SAPC’s monthly competitions.

The purpose for the club (especially for newer members and fresh photographers) is to learn how to improve your photos. Yet it’s hard to do, when you don’t know what you’re doing wrong...nor what the

competition winners are doing right. That’s why the forms are important (and required), so everyone can improve their knowledge and skills, not just the “hotshots”.

You can easily get this information, from the “metadata” that’s contained in every photo you shoot with a digital camera. If you still shoot with a film camera, you’ll just have to write down the settings as you take pictures.

So have fun & get involved! ☑

2010 – 2011 Competitions
